elinstallasjon

Messen for alle fagområdene i den elektrotekniske bransjen

ZETTLER have a tradition of Fire Detection Innovation and will be showcasing advances in the PROFILE Flexible range. The ZETTLER range is built around MZX Technology which provides some of the most advanced fire detection capabilities available.

Developed from integrating many years of product innovation through research and development across Europe, the MZX Technology platform has provided some of the best sensing technologies over 100 years and has been a great contributor to early detection and minimizing false alarms. It has also been responsible for some of the best installation techniques allowing easy and flexible engineering and installation. This has resulted in the ZETTLER range being the most resilient, reliable and serviceable systems available and has the broadest level of standards compliance.

Our experts will be at stand C01-18 and welcome any conversations regarding your fire detection requirements.
