

27 November 2020

We are pleased to announce that Mike Stonehouse, Senior Sales Engineer from Johnson Controls Manchester, UK office has been re-elected to the Fire Detection & Alarm Council at the Fire Industry Association (FIA).

This will be Mike's second term with the FD&A Council. In his new term, he will be chairing the FDWG02 Group – Connections to the Alarm Receiving Centre (ARC) and Remote Connectivity.

The FDWG02 Group provides advice to FIA members on subjects relating to the closure of PSTN telephone lines, implications that affect fire system and remote service and monitoring.

Congratulations Mike!
