

ZETTLER has always stood for high quality and excellent value for money. Today's ZETTLER systems extend this value through the whole lifetime of the fire detection systems. ZETTLER fire detection products are packed with features that start saving money from the day installation commences.

The ZETTLER range of PROFILE Flexible and PROFILE Lite control panels, provides a perfect fit for all sizes of systems, from a single panel to a multi-network fire alarm system. Designed with the goals of making them easy to operate, easy to install, and easy to service. In addition to providing the system designer with a wide range of practical engineering solutions.
